CUSTOMER STORY

Bolingbroke Academy

Find out how Bolingbroke Academy used Zecure to produce a safe learning environment, helping their pupils prosper.

CUSTOMER STORY

Bolingbroke Academy

Aiming to deliver the highest standards of educational achievement, Bolingbroke Academy knows that for their pupils to excel, they need a consistent; safe and accepting environment in which they can learn and prosper.

With this in mind, finding a personal safety solution that gives not only parents peace of mind but that also empowers pupils, Zecure was the perfect fit in aiding the support that is given to each pupil to reach their full potential.

“Bolingbroke Academy has high aspirations for all its pupils. We aim for the highest standards of educational achievement: we respect and value every pupil and support each to reach their full potential.”

With pupils able to put more focus on their education needs, parents are also given that added peace of mind with the Zecure journey feature. When moving between school and home or even extra mural activities, students activate this feature which alerts their parents of their intended journey and further alerts them should they not arrive or run into problems along the way.

“Our heritage is that of a community committed to the achievement and opportunity of all its citizens – a commitment our school will share.”

With a commitment to its pupils and the community, the addition of Zecure is allowing Bolingbroke Academy staff, pupils and parents to focus on what is utterly important – building the capabilities and encouraging the minds of the next generation.

Want to join Bolingbroke and take control of your entire safety operation?
